Strange weather?

Weird clouds that defy natural air current motion?

**Ultra toxic weather modification** is taking place in your area right now. For more information visit: [ChemTrailsGeelong.com](http://ChemTrailsGeelong.com)

This website details the disgraceful and extensive toxic aerosol climate engineering that has been going on in the skies over Greater Geelong, Victoria, without public notification, and since mid-December 2013, but the methods described are identical to those being deployed all over Australia, including your area right now. Please inform yourself about this and tell everyone you know. I can tell you from direct experience travelling around the country that **your knowledge that it is happening, and that of your family and friends, is alone enough to put a stop to this state sponsored criminal activity in your area.**
